Live Solo Performance by:

**Arman Torus**

Arman Torus is a singer songwriter from Canada and now living in Taipei. He learned guitar by writing songs that got more refined with time. His guitar playing is percussive as a result of his background playing drums which make songs sound very full even in a solo performance. The best way to describe the music is as a mix of blues, jazz and reggae with jazzy vocals. His interests outside of music include: bike riding, running, playing soccer, hiking and reading books.
